How does LG NANO 4K UHD elevate clarity and detail?

LG NANO 4K UHD is made to reveal rich detail in every scene. Its Nano Detail Enhancer analyzes every frame to enhance contrast, detail, and brightness at a nano level. Sophisticated upscaling algorithms bring up resolution to 4K. Watch your favorite content in sharper, better quality.

HDR10 Pro

Vivid details, deeper contrast in every scene

Our HDR10 Pro format brings brighter highlights and deeper shadows. Dive into brighter scenes with richer detail.*

*HDR10 Pro is not a format but LG's own Dynamic Tone Mapping applied frame by frame for HDR10 content.

alpha 7 AI Processor 4K Gen

Upgraded for smarter more powerful processing

Driven by enhanced GPU and CPU power, the alpha 7 AI Processor performs nano-scale image optimization to deliver 4K clarity with improved contrast and three-dimensional depth.

AI Magic Remote

Easily navigate and point like an air mouse to enjoy AI Hub

Control your TV easily with AI Magic Remote. With a motion sensor and scroll wheel, click, drag, and drop to use it like an air mouse or simply speak for voice commands.*

*Provides quick access to the TV's AI features but has no built-in AI processing.

*AI Magic Remote's design, availability and functions may vary by region and supported language, even for the same model.

*Some features may require an internet connection.

*AI Voice Recognition is only provided in countries that support NLP in their native language.

LG Channels 
Always ON. Always FREE.

Stream **150+**
CHANNELS FREE

*Support for certain LG Channels varies by region.

LG Channels

Endless entertainment for free

LG Channels brings diverse content from various platforms into a single hub for free, making it easier than ever to find content you love. Start watching without hidden costs or installing a top-box.*

NO PAYMENT
